SUBJECT

Lake Ontario Ordnance Works

SUMMARY

(1) Acres has identified statements in past reports that support our findings and conclusions in the RI work accomplished so far, i.e. "Evaluation of SCA Chemical Services, Model City, N.Y." - report indicates that carbon tetrachloride was disposed of in the landfill SLF-7; also see note on pg. 46. The URS report entitled "Identification of Known Past and Present Waste Areas and Solid Waste Management Units", Tables 6.4; 6.6.3; and 7.6 discuss SLF-7 and the TNT & acid waste lines.

(2) A meeting has tentatively been set up for the afternoon of 7 February with CWM at 1:00 pm at Model City.

(3) Ken requested that I consider ways to reduce the number of RI Appendices needed for the final RI submittal, since this document will have changed little from draft to final form.
