Brian Senefelder	SCA Chemical Services	716-754-8231 x246

SUBJECT

Former Lake Ontario Ordnance Works RI/FS

SUMMARY

Brian called to indicate that SCA plans to stockpile clay during the summer on the former Symms property which is now owned by the town of Lewiston. He was curious what our schedule was for looking at this area to determine additional sites to be investigated. Brian indicated that the Symms property contains old underground fuel tanks and several miscellaneous buildings/structures, as wells as pipes. I told him I'd like to walk over the area and take pictures in conjunction with developing an expanded scope of work for the project as soon as possible, but certainly before the summer is over. Brian has informed the SCA operations staff that they should avoid all structures and potential areas of contamination as much as possible during clay stockpiling operations, so that the Corps can inspect these areas in their undisturbed state.
