NAME/SYMBOL	INT

SUBJECT

L. Ontario Ordnance Works RI/FS

SUMMARY

① Synergist has substituted explosives consultants. They will provide the Corps with a resume for the new consultant.

② Acres will have 3 people on site during trenching

③ Trenching will begin early Tuesday, July 19.

④ Drums excavated and sampled during trenching operations will be sampled and analyzed by the SCA lab as well as Acres lab. The purpose of this is to identify contents and label drums

I told Ken, in response to a past question, that Acres is responsible for shipping costs associated with sending QC samples to the MRD lab. Apparently Acres did not include this cost in their original proposal.
