Re: PHASE 1 INTERIM ASBESTOS REMOVAL ACTION (LOOW SITE).

In reply to your request for comments on the above I submit the following:-

(1) ITEMS designated to be retained by owner will be spot painted with flourescent paint. Not TAGGED as specified.

(2) ALL structural steel sections, i.e. I Beams, H Beams, U Channel, Angle, Pipe Columes, Valves, All Pipe (regardless of length) to be left on site.

(3) PIPE BRIDGE structures to remain in place after removal and clean-up of asbestos covered pipe section.

(4) SIDEWALK to be replaced in front of building #31 after soil removal and replacement.

(5) ANY AND ALL SCRAP steel and metal sections to be re-cycled or scraped will be designated by property owner.

(6) ALL 55 GAL DRUMS and other containers left on site by ACRES to be removed and disposed of.

(7) There is no mention in the work plan regarding removal of debris.

(8) In the ACRES study for asbestos removal some areas of the site were NOT investigated.

(9) None of the studies done on the site have followed the goals of The Defense Environmental Restoration Program as layed out in Title 10, Chapter 160 of The United States Code.
