Ted Gable	EPA, Region II	

SUBJECT

Lake Ontario Ordnance Works RI/FS

SUMMARY

Ted called to get the status of the subject project. I told him that field work for the first phase of the project was complete and that a draft RI report was due in mid October 1988. Ted indicated that EPA issued a 3008(h) consent order to SCA Chemical Services in August 1988. I told Ted that Acres International would be conducting a field reconnaisance of the western portion of SCA's property as well as the Sommerset Group property, in the next few weeks. Ted asked to attend a portion of the field work. I told him to call Ken Witfin to coordinate his participation in some of the field work. Ted also indicated that he felt "Area G" should be studied at Lake Ontario. I told him that this area is on SCAs property and that we'd look at it during the field reconnaissance.

P.S. SCA is completing a historical areal interpretation of its property as a condition of the Consent Order.
