Ken Litfin	Acres	

ROUTING

NAME/SYMBOL	INT

SUBJECT: Former Lake Ontario Ordnance Works RI/FS

SUMMARY

I contacted Ken to determine the status of the draft RI submittal. Ken indicated that Acres would not meet their 4 Dec. goal for submittal. Their new target is 14 November. Based on this date we established a tentative meeting date of 4 January for the draft RI review conference in Kansas City. I indicated to Ken that a TRC meeting and a public meeting will be held hopefully within a month of the review meeting. Ken indicated the reconnaissance survey is on schedule and will result in a draft SOW for additional field investigations. Ken also noted that 5 drums of saturated residuals resulting from past field investigations were still on SCA property. Acres now is able to define the contents and will check with SCA regarding disposal of the drums. Ken also noted that he had interviewed an Litt, who had worked for DOE at the SCA facility in the past. He indicated that old waste lines were excavated by DOE in order to remove radioactive soil beneath the pipes.
