Dear Sir:

CERTIFICATION OF THE REMEDIAL ACTION PERFORMED AT THE NIAGARA FALLS STORAGE SITE VICINITY PROPERTIES FROM 1983 THROUGH 1986

The Department of Energy (DOE) has completed radiological surveys and taken remedial actions to decontaminate the properties in the vicinity of the DOE-owned Niagara Falls Storage Site (NFSS) in Lewiston, New York. These vicinity properties had been contaminated by radioactive materials that had originally been stored at NFSS.

The final step in this decontamination effort is to certify that these properties are in compliance with applicable decontamination criteria and standards. This certification of compliance provides assurance that future use of the property will result in no radiological exposure above DOE criteria and standards established to protect members of the general public or site occupants. Enclosed you will find a certification statement for the properties owned by the Town of Lewiston.

When completed, a formal certification docket will be placed in the Lewiston library. This docket will summarize all actions taken to bring the NFSS vicinity properties into compliance with DOE criteria and standards, and will provide references to all pertinent documents.

If you have any questions, please contact Mr. Ronald Kirk at (615) 576-7477.

Sincerely,
