Dr. Paul Merges, Director
Bureau of Radiation
Division of Hazardous Substances Regulation
State of New York
Department of Environmental Conservation
50 Wolf Road
Albany, New York 12233-7255

Dear Dr. Merges:

**CERTIFICATION DOCKET FOR THE REMEDIAL ACTION PERFORMED AT THE NIAGARA FALLS
STORAGE SITE VICINITY PROPERTIES IN LEWISTON, NEW YORK, FROM 1983 THROUGH 1986**

The Department of Energy (DOE) has completed radiological surveys and taken remedial actions to decontaminate certain properties in Lewiston, Niagara Falls, and Porter, New York. These properties, located near or adjacent to the Department's Niagara Falls Storage Site, were found to contain quantities of radioactive material from early Manhattan Engineer District/Atomic Energy Commission activities.

Enclosed for your use, please find a copy of the certification docket for the subject properties. The material in this docket consists of documents supporting the certification that these properties are in compliance with radiological guidelines and standards determined to apply to these sites and that the use of these properties will not result in any measurable radiological hazard to the general public.

If you have any questions, please contact Mr. Ron Kirk of my staff at (615) 576-7477.

Sincerely,

A handwritten signature in cursive script, reading "Lester K. Price".

Lester K. Price, Director
Former Sites Restoration Division
