AUG 0 5 1992

Mr. James H. Eckle, Esq. State of New York Department of Environmental Conservation 50 Wolf Road Albany, NY 12233-5500

Dear Mr. Eckle:

NATURAL RESOURCE TRUSTEE RESPONSE TO REQUEST FOR INFORMATION

This letter is following up on the Department of Energy's (DOE) responsibility as a relevant federal natural resource trustee in accordance with 40 CFR 300.600 relative to activities associated with DOE's Formerly Utilized Sites Remedial Action Program (FUSRAP). FUSRAP is currently managing two DOE-owned sites in New York. The first one is the Niagara Falls Storage Site in Lewiston and the second one is the Colonie Interim Storage Site in Colonie.

In response to our notification, Mr. Thomas C. Jorling named you as the initial contact to NYSDEC and requested DOE to provide you with information generated from our investigations or remedial actions. In accordance with that request, I have enclosed a copy of the scoping and planning documents for the Colonie Interim Storage Site (CISS). These documents describe DOE's actions currently being performed under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) remedial investigation/feasibility study, as augmented by the National Environmental Policy Act engineering assessment. Additionally, I am enclosing a copy of the Environmental Impact Statement and Record of Decision for the remedial actions conducted at the Niagara Falls Storage Site (NFSS).

As per our July 7, 1992, phone conversation, your name will be placed on the distribution register to receive future documents relevant to the above DOE-owned sites. If you have any questions, please contact me at (615) 576-7477.

Sincerely,

Ronald E. Kirk, Site Manager Former Sites Restoration Division
