REPLY TO
ATTN OF: EW-93

SUBJECT: CANCELLATION OF NEPA CATEGORICAL EXCLUSION (CX) - FINAL SITE CONFIGURATION
ACTIVITIES AT NIAGARA FALLS STORAGE SITE (FUSRAP-016)

to: Patty Phillips, SE-311

Pursuant to review of the existing Environmental Impact Statement (EIS) for "Long-Term Management of the Existing Radioactive Wastes and Residues at the Niagara Falls Storage Site" (DOE/EIS-0109F), we have determined that the subject CX is not needed. Although the referenced EIS does not discuss all activities related to final site configuration, it is clear that reduction of the Niagara Falls Storage Site property (e.g., release of property) and related activities were anticipated in the EIS.

Please cancel our draft CX FUSRAP-016, entitled "Final Site Configuration Activities at Niagara Falls Storage Site". This determination was reached in consultation with Ray Moore of your staff.

If you have any questions, please call me at 576-0273.
