Ms. Helen Shannon Region II Docket Coordinator U.S. Environmental Protection Agency 26 Federal Plaza, Room 2930 New York, New York 10278

Dear Ms. Shannon:

NIAGARA FALLS STORAGE SITE - FEGERAL FACILITY SITE INSPECTION REVIEW

This is in response to your review of the Site Inspection (SI) report submitted by the Department of Energy (DOE) on the Niagara Falls Storage Site (NFSS). The letter from Mr. Wing dated April 29, 1993, indicated additional information was needed before the review could be completed. During our telephone conversation on May 12, 1993, it was agreed that the needed additional information involved the work performed at the vicinity properties.

In accordance with that conversation, I have enclosed the following documents that contain information on DOE's remediation activities at the NFSS vicinity properties and the independent verification of the remediation:

- (i) <u>Post-Remedial Action Report for the Niagara Falls Storage Site Vicinity</u> <u>Properties - 1983 and 1984</u>, December 1986.
- (ii) Post-Remedial Action Report for the Niagara Falls Storage Site Vicinity Properties 1985 and 1986, January 1983.
- (iii) <u>Certification Docket for the Remedial Action Performed at the Niagara</u>
 <u>Falls Storage Site Vicinity Properties in Lewiston, New York, from 1983</u>
 <u>through 1986</u>, July 1992.
- (iv) <u>Verification of 1983 and 1984 Remedial Actions, Niagara Falls Storage</u>
 <u>Site Vicinity Properties, Lewiston, New York, December 1989.</u>
- (v) <u>Verification of 1985 and 1986 Remedial Actions, Niagara Falls Storage</u>
 <u>Site Vicinity Properties, Lewiston, New York</u>, July 1990.

If you have any questions regarding the enclosed reports or the SI, please contact me at (615) 576-7477.

Sincerely,

Ronald E. Kirk

Ronald E. Kirk, Site Manager
