Michelle,

Below is our data from the TLD's deployed from January 4, 2005 - June 28, 2005. These TLD's were read on September 7, 2005 because our reader was non-operational. As always my standard disclaimer - this data is preliminary as we do not participate in any validation program. Please call if you have any questions.

John,

Actually, could you send all results from that round? Thanks!

Michelle

John,

We noticed a discrepancy between 2 co-located TLD monitors at NFSS. Since it's co-located with a DEC split, we hoped to get your data for this location to check our results.

1/4/05-6/28/05

Location 7 (located on the SW corner of the site - see attached map).

Hope all is well. Tom's in Louisiana for the next month; give him a call.
