To Whom It May Concern:

On February 22, 1994 the Environmental Commission of the Town of Lewiston unanimously passed the following Resolution:

### RESOLUTION

The Town of Lewiston Environmental Commission wishes to go on record as calling for the elimination and removal of Radio Active Waste from the former LOOW Site presently known as Niagara Falls Storage Site and the four Town of Tonawanda Radio Active Waste Sites. These Western New York Atomic Waste Sites should be cleaned and the waste transferred to a OUT OF STATE permanent federal repository. The commission feels strongly that these sites should be cleaned and the land returned to the pre-existing condition, before the sites were contaminated.

Truly Yours,

*Donna Garfinkel*

Donna Garfinkel

Secretary to The Environmental Commission
