SUBJECT: Request for Administrative Record File Records

Dr. William Boeck

Dear Dr. Boeck:

I am writing in response to your request for copies of records from the Administrative Record File (ARF) for the Niagara Falls Storage Site Project.

Per your visit to the Buffalo District on 19 February 2008, I've enclosed a compact disk with scanned PDF files of the selected photographs you requested and also Chapter-3 of the USDOE Hydrologic and Geologic Characterization of the DOE Niagara Falls Storage Site (1981). This chapter addresses your question regarding the closure of wells and the risk of them serving as a pathway for groundwater migration. Paragraph 3.2.2 of the report states these wells were grouted closed to the ground surface.

When they are completed, I will provide you a copy of the DVD containing the USDOE videotape footage of the construction of the interim waste containment cell (IWCS).

If you have any additional questions please feel free to contact me at 879-4418. Thank you.

WILLIAM E. KOWALEWSKI, P.E., P.M.P.  
Project Manager
