Subject: Re: FW: Two different TWP 830's ? (UNCLASSIFIED)

[REDACTED],

Thank you for the response. Sample location 830 in EU 11 is a soil sample and a TWP.

In a message dated 12/7/2010 1:12:18 P.M. Central Standard Time,

Hello [REDACTED]
Figure 3-11 in the RIR (attached) shows a sample location in EU10 as TWP830 and a sample location in EU11 as 830. The two sample locations have slightly different IDs. We did not locate a sample location identified as TWP830A in the figure.
Sincerely,

[REDACTED]

Subject: Fwd: Two different TWP 830's ?

Hi [REDACTED],

I did not get a response to this question. Why are there two TWP 830's in completely different locations?

Thanks,
[REDACTED]

Subj: Two different TWP 830's ?

[REDACTED],

EU In looking at figure 3-11 from the RI, I find there are two TWP 830
and a well points. One is east of Campbell Street in EU 11 and the other is in
10, SW of the IWCS. Could [REDACTED] please clarify why we have a TWP 830
for TWP 830 A in two completely different locations. This is very confusing
the reader.

Many Thanks,

[REDACTED]
