Subject: Response to USACE Aug 30 letter re IWCS containment failure

[REDACTED]  
I am attaching a response to [REDACTED] August 30, 2010 letter, concerning IWCS containment failure. I hope this will clarify my ongoing concerns and aid further discussion. I will be in the Niagara region from November 1 through November 3, which may be a good opportunity for a face to face meeting if USACE staff are available.

I would also like to request USACE release the 2009 NFSS Environmental Surveillance Memorandum, scheduled for release in November 2010, in advance of the next public meeting on November 3, 2010. It would be useful for the public to be able to review this information before the meeting.

Many Thanks,
