

Please offer your comments, ask any questions, or request more information here. You may fill out this comment card now and leave it in the comment box. If you do not provide us with your address on this card, we will respond to your question on the NFSS website <http://www.lrb.usace.army.mil/Missions/HTRW/FUSRAP/NiagaraFallsStorageSite.aspx>. Please print legibly. Thank you for participating in this outreach. The Buffalo District Environmental Project Management Team values your input.

- Q Does the form regard the contents of the IWCS as uranium ore mill tailings (FACT SHEET page 1, Step 1)
- Q CERCLA requires compliance with ARARs. Isn't consideration of ARARs fundamental to what can be accomplished? Therefore shouldn't ARARs be considered up front rather than as the final technical memorandum?
- Q Is it acceptable to increase the volume of the residues?
- Q What is the radium content of the RIO pile? How does it compare with mill tailings?
