Subject: Thesis on the Niagara Region

To Whom It May Concern,

My name is [REDACTED], I am a student at Harvard University's Graduate School of Design (GSD). I am preparing for my thesis, which will focus on the Niagara Region as a unique case study to illustrate the ongoing shaping and reshaping of geographical landscapes triggered by the dynamics of capitalist developments. I am particularly interested in the reviewing records the Formerly Utilized Sites Remedial Action Program (FUSRAP). Every semester the GSD awards several grants for students to advance their research topics. I am preparing an application for such a grant to visit the Niagara Region and do research at various libraries and historical societies. Even though my visit would not happen until mid-May / early June, I would like to identify a contact person at the US Army Corps of Engineers in Buffalo so I can include that information on my application. It would be great if this person could help me go through some of your collections when I visit the office this summer. Thank you so much for your help.

Best Regards,
