Classification: UNCLASSIFIED
Caveats: NONE

Dear [REDACTED],

Thank you for contacting us. The Lew-Port School District maintains a link of environmental study information on their website at <http://www.lew-port.com/10701031511536457/FileLib/browse.asp?A=374&BMDRN=2000&BCOB=0&C=55660>

The Corps' portal web page for the former Lake Ontario Ordnance Works Site (LOOW) and the Niagara Falls Storage Site (NFSS) is: <http://www.lrb.usace.army.mil/derpfuds/loow-nfss/index.htm>
There are links in the side column on that page to both LOOW and NFSS pages.

We recently completed a sampling effort on the Lew-Port campus. A presentation explaining the preliminary results for this sampling is available on the web at: <http://www.lrb.usace.army.mil/fusrap/nfss/index.htm#Documents> in the presentation section for the workshop on November 2010 beginning on slide 16. The reports for this investigation will be available on our website this summer.

Sincerely,

[REDACTED]

I am interested in receiving information regarding any recent testing done at the Lewiston-Porter Schools and neighboring areas around this site. I have only found reference to 1998 testing at the school and some slightly later testing on soil, air and water around it but nothing in the past several years.

Can you tell me when the last testing was done and the results please?

Thank you,

[REDACTED]
