

From: [REDACTED]
Subject: AFP 68 presentation and Creek Sampling (UNCLASSIFIED)
Date: Friday, August 12, 2011 3:30:54 PM

Classification: UNCLASSIFIED

Caveats: NONE

[REDACTED]

We appreciated the opportunity to attend your presentation. We also recognize the extensive work necessary to review the volumes of documents/data in order to develop your presentation. As we are not aware of the reports researched during development of your presentation, we offer the following links to U.S. Department of Energy (DOE) documents.

http://www.lm.doe.gov/Considered_Sites/Niagara_Falls_Vicinity_Properties_NY_-_NY_17.aspx

<http://www.lm.doe.gov/Niagara/Vicinity/Documents.aspx>

A review of the reports located at the links above will provide perspective regarding the extensive remedial efforts conducted by the DOE. The ditches were investigated, remediated, and closed out by the DOE in the 1980s. The results, findings, and conclusions provided within these reports may alter conclusions drawn within your presentation.

We look forward to receiving a copy of last night's presentation. Please let us know if you have any questions or require additional information.

Sincerely,

[REDACTED]
Outreach Program Specialist
Special Projects Branch, Environmental Team
