SUBJECT: Niagara Falls Storage Site (Building 401 Deconstruction) and Lake Ontario Ordnance Works Wastewater Treatment Plant (Public Safety Hazard Mitigation Project), Town of Lewiston, Niagara County, New York - Project Review No. 03PR02895 and Project Review No. 10PR05270

[REDACTED]
Preservation Buffalo Niagara
617 Main Street, Suite M108
Buffalo, NY 14203

Dear [REDACTED]

The U.S. Army Corps of Engineers (USACE)-Buffalo District is pleased to provide you with photographic documentation and accompanying historic narrative of the former Lake Ontario Works (LOOW) and Niagara Falls Storage Site, including a time-lapse video of the deconstruction of Building 401 (Enclosures 1 and 2). This documentation has been completed in accordance with the stipulations of the fully executed Memoranda of Agreement between the New York State Historic Preservation Office and USACE-Buffalo District (dated March 3, 2010 and March 2, 2011) to resolve adverse effects resulting from recent Federal undertakings at the former LOOW, a property that has been determined eligible for listing in the National Register of Historic Places for its association with World War II and the Manhattan Project.

We encourage you to add these materials to your archives and welcome you to share this information with others. If you have any questions, please contact Mr. William Butler of my staff, at [REDACTED], or by writing to his attention at the above address.

Sincerely,

[REDACTED]
Supervisory Biologist
