

Jan. 14, 2016

U.S. Army Corps of Engineers - Buffalo District

Attention: Environmental Project Management Team

1776 Niagara Street, Buffalo, NY 14207

## **EPM Team:**

I attended the public meeting on Jan. 13, 2016 held at the Lewiston Senior Center, in Lewiston, NY in which I mentioned I had done a CANCER STUDY of those I'm either related to, who were my neighbors or whom I went to school at Lewiston Porter with that had or have some form of CANCER.

This (NFSS) site formerly the L.O.O.W. known as the Manhatten Project was placed there back when I was a BABY. I started gathering information of those who lived in that area when my family started getting various CANCERS, as did some of my friends @ from my Lewiston-Porter School were being diagnosed also. Besides my parents & my paternal Gt. Aunts who have since passed on from this illness. As of October 2015 I have now become the 3<sup>rd</sup> of 5 sisters to have BREAST CANCER, I had my surgery at Roswell Park. I'm on two Cancer Studies there & have submitted a copy of my study to that facility.

I was contacted by a Lee Simonson of Lewiston back in the late 70's when I wrote an article in the Niagara Gazette in regards to this Radioactive Tower & he was trying to compile a CANCER report my name was supposedly added to that list back then due to TYHROID surgery for the two very large TOXIC goiters I had. ROSWELL told me the only way for me to have TOXIC in my system like that was to come in direct contact—which I probably did in my earlier years. I drank the well water on the family farm located at 651 Pletcher Road, & then at the farm on Balmer Road near Lutts. I even bathed in well water, played in the near by creeks, ditches & ice-skated on the pond in the farmers field directly behind the TOWER. I have an article from 1957 which mentions two of my siblings being stuck in a mire muck pond of quick sand a 'possible run off pond' from the TOWER sludge, they sunk up to their waist had to be rescued by firemen & taken to local hospital for exposure, both NOW have CANCER.

I've never heard of any GOVERNMENTAL CANCER STUDY being taken, nor has anyone made contact with me other than this statement of Lewiston.

I attended a local town meeting once to address this but was told I had to PRE-REGISTER to speak, needless to say I never attended from since. I went to this meeting to see IF or WHAT could be done. I was allowed a three (3) minute speech & got MY point across. NOW my concern is "WHAT will happen to the people in that area ONCE this gets dug up & becomes air borne AGAIN"??? I have been exposed since childhood, same as my family due to where WE lived & the damage to our HEALTH is very prominent.

The Lewiston Porter School District & surrounding areas have grown over the past 70 years, just about every day I hear of a relative, friend, neighbor or resident from Lewiston, Youngstown, Model City, or Porter who has passed away or been diagnosed with some type of a CANCER. Personally I think this area is WORSE than the LOVE CANAL AREA, unlike Love Canal - NONE of us will ever see a DIME for what WE are struggling with.

Regards,

NOTE: CANCER STUDY attached

## FAMILY & FRIENDS CANCERS 1899 – 2015 ALL lived in the LEWISTON - PORTER SCHOOL DISTRICT

## & these areas

## Lewiston-Youngstown-Model City-Ransomville-the area of the TOXIC Radioactive Tower
