

US Army Corps  
of Engineers®  
Buffalo District

*You are invited!*

Niagara Falls Storage Site  
Remedial Investigation Report  
Availability/Information Session

**Wednesday, May 7, 2008**

**Team available from: 6:30 to 7:15 p.m.**

**Presentations from: 7:15 to 8:30 p.m.**

**Team available from: 8:30 to 9:00 p.m.**

**Lewiston Senior Center  
4361 Lower River Road  
Youngstown, NY 14174**

The Corps seeks your input regarding the Niagara Falls Storage Site (NFSS) remedial investigation performed under the Formerly Utilized Sites Remedial Action Program. The Remedial Investigation Report for NFSS identifies the nature and extent of contamination and quantifies human health and environmental risk at the site resulting from past federal activity under the Nation's early atomic energy program.

This is an opportunity for you to meet the Corps' project team. We will be available before and after the presentation to answer your questions.

**We look forward to meeting you! See you there!**
