RE: NFSS inquiry

[REDACTED]

I've read and re-read the letter. It provides a clear and thorough explanation regarding the raw data from the NFSS RI Addendum. I do not have any input for additions or edits. If [REDACTED] has additional questions regarding the EPA standards, I understand this information has already been passed on to her by you folks in previous e-mails:

Data Validation Manual: The Data Quality System <http://www.epa.gov/ne/oeme/index.html>

and

Guidance Of Environmental Data Verification And Data Validation, EPA-QA/G-8  
[www.epa.gov/quality/qs-docs/g8-final.pdf](http://www.epa.gov/quality/qs-docs/g8-final.pdf)

I want to thank you all again for your time on this. Once this office has received the letter, Congresswoman Slaughter will also forward it along to [REDACTED]. That will official bring closure to this matter.

[REDACTED], enjoy your vacation!

Take Care,  
[REDACTED]

Subject: NFSS inquiry

[REDACTED]

Attached is a suggested letter from USACE to Congresswoman Slaughter reference the inquiry you received from [REDACTED] on release of raw data on the NFSS Remedial Investigation Addendum

Please advise if this meets your needs. We're restating much of what we've already told [REDACTED] a year ago and trying to convey there is no hidden data that we're withholding.

I'm out of town on vacation week of 15 AUG but [REDACTED] the PM for NFSS and [REDACTED] our outreach specialist can handle this while I'm out.

Thanks  
[REDACTED]
