**Subject:** FW: Seaway Data Set

**Importance:** High  
**Categories:** Buffalo Tech Support, Seaway

[Redacted], Here is the data for Seaway, with a brief explanation. We will be sending you shortly an updated risk assessment and a new tech memo that more thoroughly discusses the radon issues at the landfill.

Also as we discussed, we hope to be able to send you the CX reviewed FSA and PP by the end of the month and then set up a meeting towards the middle of July to discuss. More to follow...

As you review the attached data, if you have any questions, please contact me.

Thanks,  
[Redacted]
