As a follow up to our March 26, 1996, telephone conversation, I have enclosed a copy of the "Summary Report Aerial Radiological Survey, Tonawanda, New York" (WAMD008, September 1979), for your information. You had previously requested this document last fall, and most recently in a March 6, 1996, letter to Vice President Al Gore. I apologize for the delay in processing your request and your patience is appreciated.

If you have further questions, feel free to contact me at [REDACTED] or, you may contact New York Site Manager [REDACTED] at [REDACTED]

Sincerely,

[REDACTED]
