FUSRAP Support Team

SUBJECT: Technical Memorandum - Summer 2001 Subsurface Investigation At The Seaway Site-Areas A, B, and C, Tonawanda, New York, November 2002

██████████
Department of Environment and Planning
95 Franklin Street, 10th Floor
Buffalo, New York 14202

Dear ██████████:

Enclosed is a copy of the subject document. This document reflects the changes in response to comments we received on the January 18, 2002, Review Draft from the CX and the Technical Project Planning (TPP) team in May 2002. The responses to those comments are also included for your information.

As you know, this brings to a close the investigation we developed together during our TPP sessions in years 2000 and 2001. The investigation was successful in achieving the primary objectives identified by the TPP. The results of this investigation will be used to further develop the alternatives for the Seaway Feasibility Study Alternative and the Proposed Plan currently scheduled to be released by the end of next year.

A copy of this letter with the enclosed report has been furnished to ██████████ a ██████████, Buffalo District, Corps of Engineers. Copies of this letter without the report have been furnished to Mr. David Conboy, Buffalo District, Corps of Engineers and Mr. ██████████, SAIC. If you have any questions, please feel free to contact me at (716) 879-4██████████76.

Sincerely,

████████████████████
Project Manager
