

United States Government

memorandum

DATE: DEC 16 1992

1992 DEC 21 PM 1:55

REPLY TO: EM-421 ([REDACTED], 903-8149)
ATTN OF:

SUBJECT: Designation of Tonawanda Vicinity Properties

TO: [REDACTED], OR

Pursuant to the attached radiological survey report, the Town of Tonawanda Landfill is designated for remedial action under the Formerly Utilized Sites Remedial Action Program as a vicinity property to the Linde site. The survey report indicates that uranium ore and waste products from the processing of uranium ore are present in some portions of the landfill.

This designation is restricted to those portions of the landfill containing uranium and uranium decay products from activities related to DOE's predecessors. It does not include portions of the landfill which contain americium or radionuclides not used by the Department's predecessors.
