SUBJECT: Formerly Utilized Sites Remedial Action Program, Tonawanda Landfill and
Mudflats Remedial Investigation

[REDACTED]

Dear [REDACTED]:

I am writing to inform you of sampling that will take place in the near future in the Town of Tonawanda Landfill and the Mudflats Area (Landfill and Mudflats), which is located near your property.

The Landfill and the Mudflats are currently designated under the Formerly Utilized Sites Remedial Action Program (FUSRAP) as a Vicinity Property of the Linde FUSRAP site. FUSRAP is an environmental program created in 1974 to identify, investigate and take appropriate cleanup action at sites with radioactive contamination from activities that took place in support of the Nation's early atomic weapons program.

The Corps is conducting a Remedial Investigation (RI) of the Landfill and Mudflats in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The RI will involve soil and groundwater sampling which is scheduled to begin in April 2001. This sampling effort will allow us to gather sufficient information to support an informed decision regarding a remedy for the site.

A Public Information Session will be held on Thursday, March 29, 2001 from 7 p.m. to 9 p.m. in the Community Room of the Philip Sheridan Building located at 3200 Elmwood Avenue in Kenmore, New York. Since your property lies adjacent to the Landfill, I anticipate that you may have specific questions regarding our upcoming sampling activities at the Landfill and Mudflats. Therefore, on Saturday, March 24, 2001 and Monday, March 26, 2001, the Project Manager, Project Engineer, and Public Affairs representatives will be available by appointment to individually answer your questions. They will be available to meet with you at your home between 10 a.m. and 3 p.m. on Saturday and 9 a.m. and 4 p.m. on Monday. You can schedule an appointment by calling my Public Affairs Office at (800) 833-6390 or (716) 879-4438.

[REDACTED]:

I am writing to inform you of sampling that will take place in the near future in the Town of Tonawanda Landfill and the Mudflats Area (Landfill and Mudflats), which is located near your property.

The Landfill and the Mudflats are currently designated under the Formerly Utilized Sites Remedial Action Program (FUSRAP) as a Vicinity Property of the Linde FUSRAP site. FUSRAP is an environmental program created in 1974 to identify, investigate and take appropriate cleanup action at sites with radioactive contamination from activities that took place in support of the Nation's early atomic weapons program.

The Corps is conducting a Remedial Investigation (RI) of the Landfill and Mudflats in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The RI will involve soil and groundwater sampling which is scheduled to begin in April 2001. This sampling effort will allow us to gather sufficient information to support an informed decision regarding a remedy for the site.

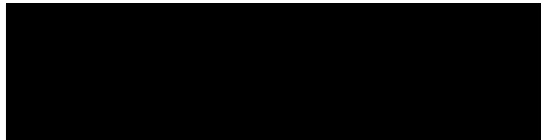

A Public Information Session will be held on Thursday, March 29, 2001 from 7 p.m. to 9 p.m. in the Community Room of the Philip Sheridan Building located at 3200 Elmwood Avenue in Kenmore, New York. Since your property lies adjacent to the Landfill, I anticipate that you may have specific questions regarding our upcoming sampling activities at the Landfill and Mudflats. Therefore, on Saturday, March 24, 2001 and Monday, March 26, 2001, the Project Manager, Project Engineer, and Public Affairs representatives will be available by appointment to individually answer your questions. They will be available to meet with you at your home between 10 a.m. and 3 p.m. on Saturday and 9 a.m. and 4 p.m. on Monday. You can schedule an appointment by calling my Public Affairs Office at (800) 833-6390 or (716) 879-4438.

The RI will involve soil and groundwater sampling which is scheduled to begin in April 2001. This sampling effort will allow us to gather sufficient information to support an informed decision regarding a remedy for the site.

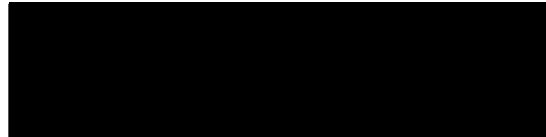

A Public Information Session will be held on Thursday, March 29, 2001 from 7 p.m. to 9 p.m. in the Community Room of the Philip Sheridan Building located at 3200 Elmwood Avenue in Kenmore, New York. Since your property lies adjacent to the Landfill, I anticipate that you may have specific questions regarding our upcoming sampling activities at the Landfill and Mudflats. Therefore, on Saturday, March 24, 2001 and Monday, March 26, 2001, the Project Manager, Project Engineer, and Public Affairs representatives will be available by appointment to individually answer your questions. They will be available to meet with you at your home between 10 a.m. and 3 p.m. on Saturday and 9 a.m. and 4 p.m. on Monday. You can schedule an appointment by calling my Public Affairs Office at (800) 833-6390 or (716) 879-4438.

[REDACTED]:

I am writing to inform you of sampling that will take place in the near future in the Town of Tonawanda Landfill and the Mudflats Area (Landfill and Mudflats), which is located near your property.

The Landfill and the Mudflats are currently designated under the Formerly Utilized Sites Remedial Action Program (FUSRAP) as a Vicinity Property of the Linde FUSRAP site. FUSRAP is an environmental program created in 1974 to identify, investigate and take appropriate cleanup action at sites with radioactive contamination from activities that took place in support of the Nation's early atomic weapons program.

The Corps is conducting a Remedial Investigation (RI) of the Landfill and Mudflats in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The RI will involve soil and groundwater sampling which is scheduled to begin in April 2001. This sampling effort will allow us to gather sufficient information to support an informed decision regarding a remedy for the site.

A Public Information Session will be held on Thursday, March 29, 2001 from 7 p.m. to 9 p.m. in the Community Room of the Philip Sheridan Building located at 3200 Elmwood Avenue in Kenmore, New York. Since your property lies adjacent to the Landfill, I anticipate that you may have specific questions regarding our upcoming sampling activities at the Landfill and Mudflats. Since your property lies adjacent to the Landfill, I anticipate that you may have specific questions regarding our upcoming sampling activities at the Landfill and Mudflats. Therefore, on Saturday, March 24, 2001 and Monday, March 26, 2001, the Project Manager, Project Engineer, and Public Affairs representatives will be available by appointment to individually answer your questions. They will be available to meet with you at your home between 10 a.m. and 3 p.m. on Saturday and 9 a.m. and 4 p.m. on Monday. You can schedule an appointment by calling my Public Affairs Office at (800) 833-6390 or (716) 879-4438.

SUBJECT: Formerly Utilized Sites Remedial Action Program, Tonawanda Landfill and
Mudflats Remedial Investigation

[REDACTED]

[REDACTED]:

I am writing to inform you of sampling that will take place in the near future in the Town of Tonawanda Landfill and the Mudflats Area (Landfill and Mudflats), which is located near your property.

The Landfill and the Mudflats are currently designated under the Formerly Utilized Sites Remedial Action Program (FUSRAP) as a Vicinity Property of the Linde FUSRAP site. FUSRAP is an environmental program created in 1974 to identify, investigate and take appropriate cleanup action at sites with radioactive contamination from activities that took place in support of the Nation's early atomic weapons program.

The Corps is conducting a Remedial Investigation (RI) of the Landfill and Mudflats in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The RI will involve soil and groundwater sampling which is scheduled to begin in April 2001. This sampling effort will allow us to gather sufficient information to support an informed decision regarding a remedy for the site.

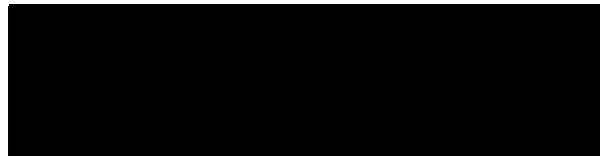

A Public Information Session will be held on Thursday, March 29, 2001 from 7 p.m. to 9 p.m. in the Community Room of the Philip Sheridan Building located at 3200 Elmwood Avenue in Kenmore, New York. Since your property lies adjacent to the Landfill, I anticipate that you may have specific questions regarding our upcoming sampling activities at the Landfill and Mudflats. Therefore, on Saturday, March 24, 2001 and Monday, March 26, 2001, the Project Manager, Project Engineer, and Public Affairs representatives will be available by appointment to individually answer your questions. They will be available to meet with you at your home between 10 a.m. and 3 p.m. on Saturday and 9 a.m. and 4 p.m. on Monday. You can schedule an appointment by calling my Public Affairs Office at (800) 833-6390 or (716) 879-4438.
