## TOWN OF TONAWANDA

# Comment period extended on N-waste proposal

The public comment period on the proposed disposition of nuclear wastes at a Town of Tonawanda site has been extended by 30 days, the U. S. Army Corps of Engineers announced Wednesday.

Nov. 28 is the new deadline for comments on the proposed plan for the "Seaway Site" off River Road. Comments will be reviewed and evaluated before the corps makes a final decision on the cleanup remedy.

A combination of containment and excavation has been proposed for low-level radioactive wastes generated by the nation's nuclear weapons program.
