In Brief

Waste site comment period extended

The Department of Energy has announced an extension of the public comment period for the draft feasibility study/proposed plan environmental impact statements for the Town of Tonawanda sites contaminated by low-level radioactive waste.

The comment period has been extended through Feb. 10, 1994. Any questions or additional information can be directed to the DOE Public Information Center at 871-9660. Requests may also be directed to 1-800-253-9759.

Documents explaining the options for clean-up of the properties are available for review at the Tonawanda Public Library, Parkside Village Branch Library, Kenmore Public Library and Grand Island Memorial Public Library.

Any comments to be submitted in writing may be directed to Ronald Kirk, Former Sites Restoration Division, US Department of Energy, PO Box 2001, 200 Administration Road, Oak Ridge, Tenn., 37831-8723.
