

## FACT SHEET

February 2016

### Flood Plain Management Study - Sandusky County, OH

Section 206 of the 1960 Flood Control Act, as amended  
General Investigations

#### Location

- Streams and rivers located within the Sandusky County

#### Project Description

- A Flood Plain Management Study will create a hydrologic and hydraulic model for the Sandusky River and Raccoon Creek in Clyde, Ohio for the purposes of defining the 1% and .2% chance of exceedance (100 and 500-year flood plain) in the study areas

#### Importance

- Updated flood plain information will assist local officials in zoning and flood plain management in the community

#### Consequences

- Without updated studies; communities will not have accurate and current flood plain information and sound flood plain management will be difficult to enforce

Project Phase*	Estimated Federal Cost	Federal Funding Thru FY15	FY16 Requirement	FY16 Budget	FY17 Requirement	FY17 Budget
FPMS -Sandusky County**	\$250K	\$168K	\$0K	\$0K	\$0	NA

\* FPMS Studies are 100% Federally financed

#### Project Sponsor/Customer

- State of Ohio
- Sandusky County Residents

#### Congressional Interests

- Representative Bob Latta R-OH-5
- Senator Rob Portman R-OH
- Senator Sherrod Brown D-OH

#### Current Status

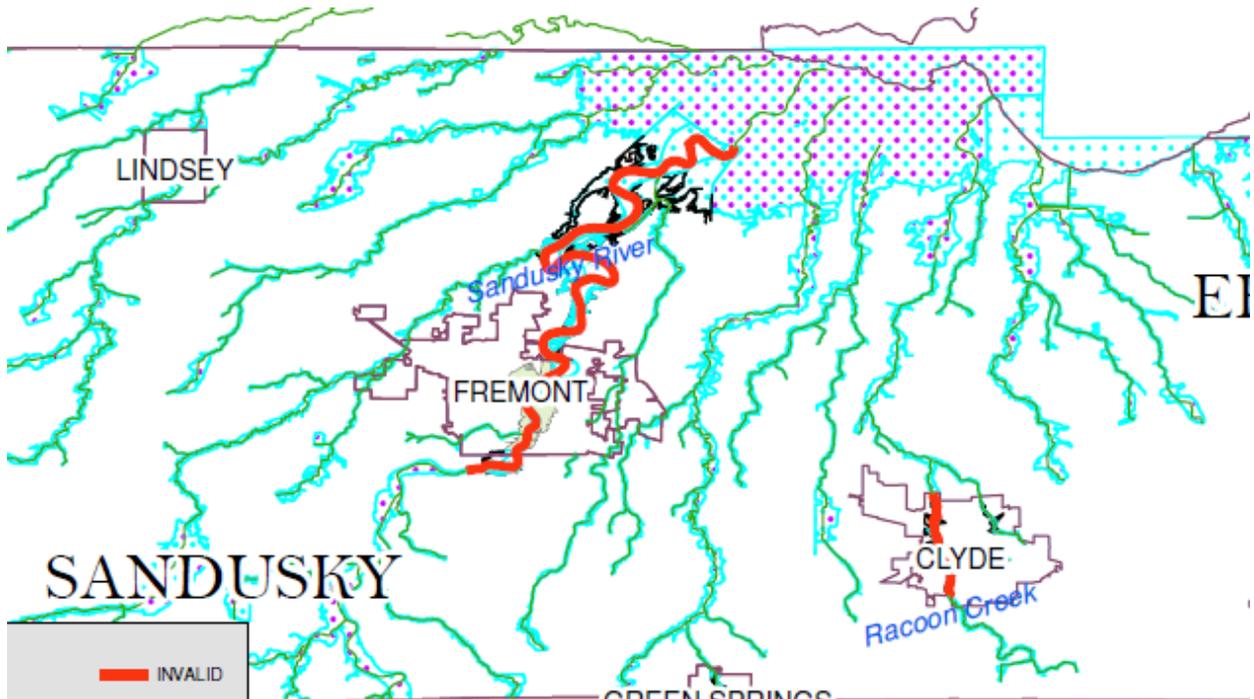

- Prioritization of water bodies needing updated studies was coordinated with Federal Emergency Management Agency (FEMA), US Geological Survey (USGS), Ohio Emergency Management Agency

(OEMA) and Ohio Department of Natural Resources (ODNR)

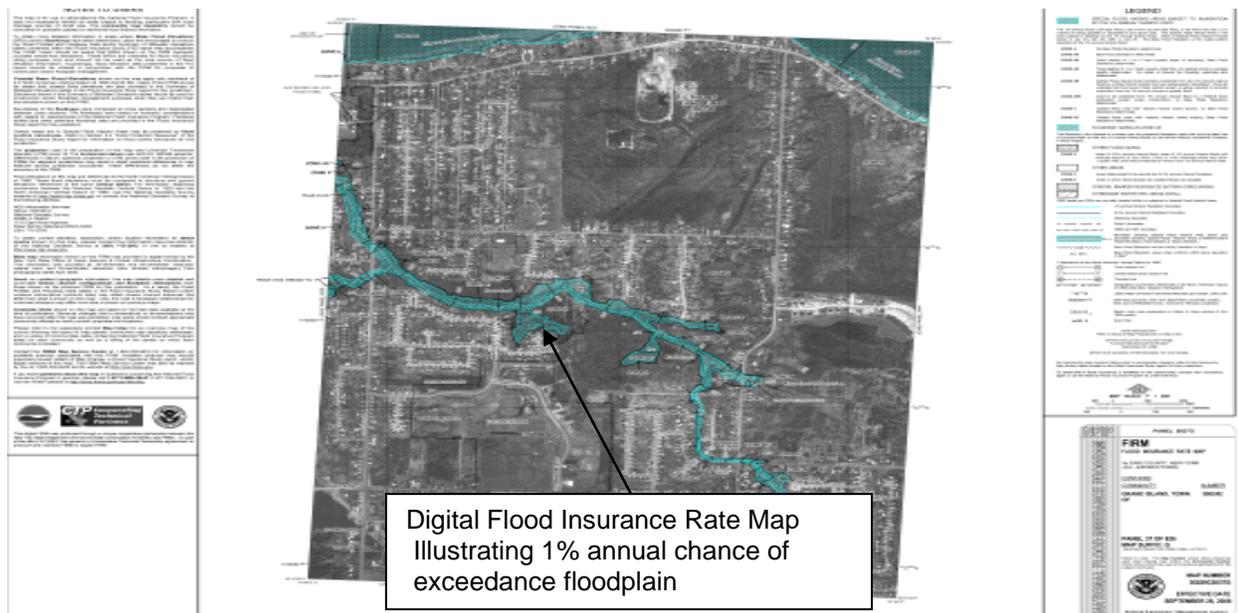

- Work on this study has been completed and provided to the county for their review and comment
- The study will be finalized after comments are received and incorporated into the study
- Additional work could be addressed if funding was made available
- The completed reports and technical studies will be provided to FEMA as an application for a Letter of Map Revision

#### Issues

- None
