- Located on Lake Erie at the mouth of the Toussaint River, Carroll Township, Ohio
- Authorization: River & Harbor Act of 1960 and Water Resources Development Act (WRDA) of 2007
- Shallow draft recreational harbor
- Authorized depth is 4 feet in the Federal navigation channel
- Maintenance dredging work for this project is cost shared 72% Federal and 28% local. The local project sponsor is Carroll Township
- The former Erie Army Depot utilized an area near the Toussaint River project as a military munitions range from 1918 – 1967. The Army National Guard, located at Camp Perry, currently utilizes a portion of this range as part of daily operations

- Major stakeholders include fishing interests and the recreational boating community

Project Requirements

- Maintenance dredging is required every 3-4 years

- The project was last dredged in 2004 when 24,000 cubic yards (CY) of material was removed
- The current sediment backlog within the functional harbor area is estimated at approximately 25,000 CY
- Critical requirements include maintenance dredging and sediment sampling

Consequences of Not Maintaining the Project

- Failure to dredge will result in continued shoaling and reduced channel dimensions; resulting in unsafe navigation conditions
- Potential safety issues for recreational boating community
- Negative economic impacts, locally and regionally

Transportation Importance

- Provides safe access between Toussaint River and Lake Erie
- Other features include 400 seasonal and 50 transient recreational boat slips
