Fact Sheet

FUSRAP-Related Material in the Tonawanda Landfill and Mudflats Area

Formerly Utilized Sites Remedial Action Program • March 2002

This fact sheet has been prepared to address community outreach needs and is consistent with provisions of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). Fact sheets are one part of an effort to provide public information on environmental restoration and waste management.

Administrative Record File

The administrative record file is the collection of documents that form the basis for the selection of a response action at an environmental restoration site. Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), the U.S. Army Corps of Engineers is required to establish an administrative record file for every remedial or response action under the Formerly Utilized Sites Remedial Action Program (FUSRAP) and to make a copy of that file available at or near the site.

The administrative record file must be reasonably available for public review during normal business hours. The file is treated as a non-circulating reference document. This allows the public greater access to the volumes and also minimizes the risk of loss or damage. Individuals may photocopy any documents contained in the file, according to the photocopying procedures at the local repository.

The documents in the administrative record file may become damaged or lost during use. If this occurs, the local repository manager should contact the Buffalo District for replacements. Documents may be added to the file as the site work progresses. Periodically the Corps may forward supplemental volumes and indexes directly to the local repository. These supplements should be placed with the initial record.

The administrative record file will be maintained at the local repository until further notice. Questions regarding the maintenance of the record should be directed to the administrative record coordinator at **1-800-833-6390**.

The Corps welcomes comments at any time on documents contained in the administrative record file. Please send any such comments to the U.S. Army Corps of Engineers FUSRAP Public Information Center, 1776 Niagara Street, Buffalo, NY 14207. The Buffalo District may hold formal public comment periods at certain stages of the response process. The public is urged to use these formal review periods to submit their comments. The public will be advised through the local news media of these formal review periods.

Tonawanda Landfill and Mudflats Area Key Documents

Key documents regarding the FUSRAP-related materials in the Tonawanda Landfill and Mudflats Area are currently contained in the Administrative Record File for the Tonawanda Sites that was developed by the U. S. Department of Energy and the Administrative Record File for the former Linde Site that was developed by the Buffalo District. These Administrative Record Files are located in the:

Tonawanda Public Library
333 Main Street
Tonawanda, New York

U.S. Army Corps of Engineers
FUSRAP Public Information Center
1776 Niagara Street
Buffalo, New York

The documents listed below are located in the Administrative Record File for the Tonawanda Sites:

- T-145 *Results of the Radiological Survey at the Town of Tonawanda Landfill, Tonawanda, NY*
- T-147 *Designation of Tonawanda Vicinity Properties*
- T-314 *Tonawanda Landfill Field Sampling Results*

The document listed below is located in the Administrative Record File for the former Linde Site:

- 3010 *Radiological Human Health Assessment for the Town of Tonawanda Landfill*

The Buffalo District will be developing a separate Administrative Record File for the FUSRAP-related material in the Tonawanda Landfill and Mudflats Area and releasing that file for public comment once a Community Relations Plan is developed based on input from the community.
