REMARKS:

Mr. Hildebrand,

This is to inform you that work will be commencing on 9 May 2001 on Occidental property.

The Buffalo District and the on-site contractor (EA Engineering) contacted Mr. David Arndt to discuss work that would be taking place on site. After we explained what we were doing to Mr. Arndt he agreed to waive the two day waiting period as long as he is notified first if anything unusual happens. He also indicated that he may make a site visit to see the work in progress.
