New York Pennsylvania Area Office

SUBJECT: Contract No. DACW49-00-D-0002, Delivery Order 0002,  
Interim Removal Action TNT Pipeline and Chemical Sewer Lines at  
the Former Lake Ontario Ordinance Works

Mr. Jerry Castiglione, Site Project Manager  
Sevenson Environmental Services, Inc.  
2749 Lockport Road  
Niagara Falls, New York 14305

Dear Mr. Castiglione:

This is to confirm that the CX has granted approval to blend the "lava rock mixture" with on site soil with subsequent disposal at an acceptable disposal facility. The resulting mixture shall be 5% or less TNT.

A profile of this soil mixture may be required for disposal. We ask that you speak to your disposal facility about this. Possibly, they will only request a profile of the "lava rock mixture" currently stored on site. Please let me know as soon as possible.

Sincerely,

Brian F. Moore  
Administrative Contracting  
Officer
