I talked with Becky and addressed her concerns.

She had concerns that reassigning Justina would negatively impact the entire project. I believe those concerns have been resolved.

Ray:

My secretary received a phone call from Ms. Becki Zayatz, property owner of Waste Management. Ms. Zayatz is "has some concerns." I have not returned her call. She may be reached at 716-754-0279. In keeping with your request that all communications with folks outside the Corps come from your office, please advise as to what you would like me to do. I have no problem returning the call. As you know I do speak with one voice. Let me know.
