"Based on my previous conversations about the former Guterl Steel site with LTC Glen DeWillie and his staff at the Buffalo District Corps of Engineers, especially at the meeting in my Buffalo office three weeks ago, as well as their ongoing work at nearby sites in Tonawanda and Lewiston, I am pleased that the Buffalo District Corps of Engineers has been assigned jurisdiction over the Guterl site. I look forward to working closely with the Buffalo District to ensure that immediate action is taken to assess the site, and, if warranted, include the site in the Formerly Utilized Defense Sites program for prompt and thorough remediation."
