Dear Environmental Reports Coordinator:

Re: 2000 Hazardous Waste Report
    Site EPA ID Number and Location: NY7210014174
                                         1660 BALMER RD
                                         YOUNGSTOWN, NY 14174

In early 2001, the New York State Department of Environmental Conservation sent you a booklet which included the 2000 Hazardous Waste Report Forms and Instructions. All large quantity generators (LQGs), in addition to RCRA treatment, storage and disposal facilities (TSDFs) must file an annual report of their hazardous waste activities for the previous calendar year by March 1 of each year, pursuant to 6 NYCRR Parts 373-1.6(a)(12)(ix) and 372.2(c)(2).

The Department has still not received the Report as of the date of this notification. The Department believes that your facility is responsible for filing a 2000 Hazardous Waste Report. This report is required by law. Failure to file can result in enforcement action, including fines of up to $25,000 plus an additional penalty of not more than $25,000 for each day the violation continues.

Your completed Report must be submitted within 15 business days to: *sent out 8/8/01*

New York State Department of Environmental Conservation
Regulatory Development Section
625 Broadway, 9th Floor
Albany, New York 12233-7250

Department records indicate that you generated sufficient hazardous waste in 2000 to require you to file a report. If you believe you are not required to report, you must contact this office immediately.

If you have any questions, please call 800-452-1925 (NYS Only) or (518) 402-8730.

Sincerely,

Deborah L. Aldrich, P.E.
Section Chief, Regulatory Development Section
