Subject: LOOW Area A SOW

As previously discussed and agreed upon by the LOOW Team members, the SOW was rewritten from the Draft Specifications from Weston. Normally a SOW does not go into such detail as this one, but since we already had all this information from the Draft Specifications, I included almost everything from the Draft Specifications into the new SOW.

ScopeOfWork_LOOW.
PDF

This SOW review will be completed using DrChecks (a web-based project review tool which tracks comments and responses). **Both of you will be registered at DrChecks by COB today (May 23rd). Make sure you enter your comments under the ITR SOW for Area A.** You currently have access to the DrChecks Test project, and you can use this project to familiarize yourself with the program. If you have any questions on the use of DrChecks, please contact Scott Sawyer (716-879-4169 or through e-mail).

Please provide your comments NLT 17 JUNE 2002 using DrChecks. No response will be taken as an indication of "no comments", however please send a confirmatory e-mail to Debbie Howell indicating that you do not have any comments. If you have any questions or comments, or if you have any problems meeting this schedule, please let me know.

If you have any questions or comments, please let me know.

Thanks,

Debbie
