Subject: RE: SOW FOR TNT SURFACE WALKOVER

Deb:

I have reviewed the SOW for the surface walkover. Please ensure that an AHA is created for all individual tasks as stated and that they follow **Figure 1-1, Page 4**, of the *Safety and Health Requirements Manual EM 385-1-1* (Red Book).

Thanks,

Tony Cappella

Importance: High

Good morning,

This is just a reminder to review and comment on the Walkover SOW. If you have no comments, please let me know. I really want to get the contractor rolling on the workplans ASAP.

Thanks for your cooperation.

Debbie

For those of you who already replied, thank you!

Subject: SOW FOR TNT SURFACE WALKOVER

Good morning,

Attached is the SOW for the Surface TNT Walkover. Wayne stated that we need an ESS Report for the walkovers as there is a good chance that we will find surface TNT.

I also added a task for sampling as we may decide to take samples at a later time.

Please review and comment by 4/12/02. If you need more time, please let me know.

Thanks,

Debbie

PS- Map is not attached.
