Subject: Re: 1999 Haz Waste Report

Hi Bill, this is what I found out, first, you are absolutly correct, the id NY8210014174, should be NY7210014174 for Lake Ontario Ordnance Works, somehow when the manifests showed up here at DEC with the wrong ID, it was changed to NY8120010006 which was also wrong for that site, that ID belongs to US Army Corp of Engineers, 5226 County Rt 1, Rushville, NY. These manifests have been corrected.

NY7890108973 belongs to Niagara Falls Storage site, which there are no manifests for 1999.

NY3960009923 belongs to US Army Corp of Engineers, 1775 or 1776 Niagara St, Buffalo, which a report for 1999 has already been submitted.

I can find no info on Somerset Group Property.

So as it stands now the only report we are waiting for is for NY7210014174. If you need any further assistance, call me 800-452-1925

Ernie

Request your assistance in completing the 1999 hazardous waste report. Specifically, I seek confirmation of the EPA generator ID numbers and addresses you have in your records for the Buffalo District, US Army Corps of Engineers.

I'm in the process of completing the report for USACE generation at the Lake Ontario Ordnance Works site, Niagara County, New York where we have conducted remedial investigations and interim removal actions. This site consists of multiple property owners and there have been multiple contractors working on the site. Several different EPA waste generator ID numbers have been used on the manifests. I need to rectify them to ensure our reporting is accurate.

- The request DEC sent us on 13 Mar 2000, for the 1999 report, lists our EPA Number as NY8120010006, for the address US Army Corps of Engineers, 1775 Niagara Street, Buffalo, NY 14207. This number is not listed in the EPA RCRIS system (data as of 29 March 2000). I can find no records requesting/receiving this number from EPA.

- RCRIS lists only two numbers for our district: NY7210014174 and NY7890108973. We used NY7210014174 in 1998 for RCRA disposal. Our manifests from 1999 use the number NY8210014174 - which I believe is a typographical error on the writer's part - they should have used NY7210014174.

- Can you please e-mail me all the EPA waste ID numbers you have listed for:

- US Army Corps of Engineers, Buffalo District
- Lake Ontario Ordnance Works
- Niagara Falls Storage Site
- Somerset Group Property, Balmer Road, Model City, NY

I apologize for the confusion and will ensure generation in 2000 on this site adheres to a single waste generator ID number. Thank you for your assistance. Please call if you need to speak to me.

NY396 0009923

Bill
