Dear Ms. Rhodes:

Spill Number 0806523  
Lake Ontario Ordnance Works  
Lewiston, Niagara County

We have reviewed the UST Removal Action Closure Report dated May 29, 2009 by EEC for the above-referenced site. The confirmatory analytical sample results exceed our soil guidance values; therefore, further work is required. We require this additional work for the following areas:

- 1) Tank 2.4 - West
- 2) Tank 2.6 - North and East

All other results are acceptable for the Department to issue a "no further work – inactive" status.

Please submit a work plan to address the above-listed areas by December 31, 2009.

Your cooperation is appreciated. If you have any questions, please call me at (716) 851-7220.

Sincerely,

Salvatore A. Calandra  
Environmental Engineer I
