RE: Site Inspection Report – Former LOOW, Site No. 932061

Dear Mr. Senus:

The New York State Department of Environmental Conservation (the “Department”) has reviewed the “Site Inspection Report, Ground Disturbances at the Former Lake Ontario Ordnance Works.” The report was received by the Department on January 30, 2015.

Upon review, the Department concurs with the conclusion that there is no visual evidence of potential contaminant sources or releases of contamination at the former ground disturbances which were visited as part of this walkover inspection.

If you have any questions on this matter, please contact me.

Sincerely,

Kent D. Johnson
Senior Engineering Geologist
Remedial Section B, Remedial Bureau E
Division of Environmental Remediation
