Site Inspection Report Ground Disturbances at the Former Lake Ontario Ordnance Works Formerly Used Defense Site

The U.S. Army Corps of Engineers Buffalo District is pleased to announce the availability of the Site Inspection Report, Ground Disturbances at the Former Lake Ontario Ordnance Works, on the Buffalo District website in the Reports Section at <http://www.lrb.usace.army.mil/Missions/HTRW/DERPFUDS/LakeOntarioOrdnanceWorks.aspx>

The former Lake Ontario Ordnance Works (LOOW) is located in the towns of Lewiston and Porter, Niagara County, New York, and was used during World War II as a trinitrotoluene (TNT) manufacturing facility. To prepare the report, a preliminary assessment of ground disturbances identified from 1944 aerial photographs was performed and 20 ground disturbances were selected for walkover inspection. The report concludes that there is no evidence of potential contaminant source areas or releases of contamination to groundwater, surface water, or soil associated with any of the ground disturbances evaluated. No further action is necessary for the ground disturbances evaluated.

The report was prepared as part of the Corps' environmental response project conducted under the Defense Environmental Restoration Program for Formerly Used Defense Sites (DERP-FUDS) in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. § 9601 et. seq. as amended) and the National Oil and Hazardous Substances Pollution Contingency Plan (40 CFR 300).

If you require additional information on the former LOOW, please email derpfuds@usace.army.mil or call 1-800-833-6390 (Option 4).

his daughter and her boyfriend were marijuana and it had been "a while" since he smoked it. Patrol asked for permission to search the vehicle and the suspect agreed. Patrol had the suspect and passenger step out of the vehicle as patrol searched.

Upon searching the center console area, patrol located residue from a burnt marijuana cigar in the cup holder of the vehicle, and upon searching the driver's side, found a small baggie

with an unknown type of blue pills in the driver's side. Patrol responded to numerous calls of a man walking in the middle of the road, hitting cars as they passed. Upon arrival, patrol observed the man hanging on to a snowplow in the intersection. Patrol noted he was holding up traffic, about four cars in each direction.

Patrol ordered him to turn around and walk toward patrol with his hands in the air. At this point, patrol observed

the man to be highly intoxicated and shouting unknown words. The man the man, but did reach his mother, who said the man was never served an eviction notice and he was still stopping by the residence to care for the dogs. Patrol advised her it was imperative arrangements be made for the pit bulls.

Patrol checked the welfare of the dogs. Both were barking and seemed fine. Patrol noted feces on the floor of the living room. Patrol cleared.
