

**Luckey Formerly Utilized Sites Remedial Action Program Site News from the Corps**

Sent Tue 11/21/2017 3:40 PM

Happy Thanksgiving wishes to you from the U.S. Army Corps of Engineers Buffalo District,

Luckey Site infrastructure set up activities continue. Office trailer installation is complete. Instruments are being calibrated in the on-site lab trailer, and shower trailers have arrived and are being set up.

Operations will be paused at the site in observance of Thanksgiving, beginning Thursday, November 23. The cleanup contractor will return to work on Monday, November 27th.

A structure that will house the soil sorter, a pugmill that will help break up the soil before it goes through the soil sorter, individual components of the soil sorter, and a waste water treatment system will arrive at the site by mid-December.
