

Luckey Formerly Utilized Sites Remedial Action Program Site News from the Corps

Sent Thu 1/18/2018 1:56 PM

Hello from the U.S. Army Corps of Engineers Buffalo District:

Progress continues to be made at the Luckey FUSRAP Site. Groundwater wells that are located within the areas to be cleaned up are being decommissioned following Ohio EPA guidance, concrete pads and foundations to support remediation equipment continue to be poured, and the soil sorter is being assembled. Project utilities, such as electric, water, and sewer, are also being installed and connected.

Please save the date for our next public information session on the evening of Tuesday, March 27, beginning at 6:30 p.m. at the American Legion Post 240 on 335 Park Drive in Luckey, Ohio. The meeting will start with a brief presentation followed by a poster session where you can talk with the project team.
