Formerly Utilized Sites Remedial Action Program (FUSRAP)
Decision Procedure

**Potentially Eligible**
- U.S. Department of Energy (DOE) referral to the U.S. Army Corps of Engineers.

**Pre-designation Activities**
- Preliminary Assessment
- Site Inspection
- Preliminary Legal Analysis of Government Responsibility
- Preliminary identification of site hazards and evaluation of the need for action under FUSRAP.

**Site Designation**
- Based on results of the pre-designation activities the Corps of Engineers may designate a site into FUSRAP for further investigation and potential action.

**Remedial Investigation/Feasibility Study**
- Scoping
- Site Characterization
- Baseline Risk Assessment
- Treatability Studies
- Development and Evaluation of Alternatives
- Gather information sufficient to support an informed risk-management decision regarding whether an action is needed; and if so, which remedy appears to be the most appropriate for a site.

**Proposed Plan**
- Identification of Preferred Alternative
- Release for 30-day Public Review Period
- Identify preferred alternative in a Proposed Plan based upon preliminary balancing tradeoffs among alternatives using nine criteria specified in the National Oil and Hazardous Substances Pollution Contingency Plan (NCP).

**Record of Decision**
- Make final determination on remedy, which complies with the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) of 1980 as amended and the NCP.

**Post Record of Decision**
- Remedial Design (if necessary)
- Remedial Action (if necessary)
- Project Completion
- Site Closeout
- Implement the response action defined in the Record of Decision (ROD), and document and demonstrate that the action was completed in accordance with the ROD and in compliance with CERCLA and the NCP.

**Long-Term Management**
- Operations and Maintenance (if necessary)
- Five-year Reviews (if necessary)
- Corps of Engineers returns site to DOE Office of Legacy Management for long-term stewardship.

**Luckey Site**
