January 2011

Administrative Record File

Under the Comprehensive Environmental Response, Compensation, and Liability Act, the U.S. Army Corps of Engineers (Corps) is required to establish an administrative record for every remedial or response action under the Formerly Utilized Sites Remedial Action Program (FUSRAP) and to make a copy of that file available at or near the site.

The administrative record file must be reasonably available for public review during normal business hours. This allows the public greater access to the volumes and also minimizes the risk of loss or damage. Individuals may photocopy any documents contained in the record file, according to the photocopying procedures at the local repository.

The documents in the administrative record file may become damaged or lost during use. If this occurs, the local repository manager should contact the Corps for replacements. Documents may be added to the record as the site work progresses. Periodically, the Corps may forward supplemental volumes and indexes directly to the local repository. These supplements should be placed with the initial record.

The Corps welcomes comments at any time on documents contained in the administrative record file. Please send any such comments to the:

U.S. Army Corps of Engineers
FUSRAP Team
1776 Niagara Street
Buffalo, NY 14207

For further information on the administrative record file, contact us at 1-800-833-6390 (option 4).
