

## NIAGARA FALLS STORAGE SITE NEWS FROM THE CORPS OF ENGINEERS

Sent: Fri 5/27/2022 9:16 AM

Hello from the U.S. Army Corps of Engineers Buffalo District:

We continue to move forward with our plans to remediate Niagara Falls Storage Site (NFSS)! The attached photo is the new temporary modular office building to be used by our team during site operations and cleanup.

Environmental sampling is taking place at the site this week, our design contractor is planning to visit the site and start reviewing project records in July, and we will be releasing the record of decision for the Balance of Plant and Groundwater Operable Units later this summer.

If you are aware of anyone who would be interested in receiving email updates regarding the NFSS, please ask them to send an email to [fusrap@usace.army.mil](mailto:fusrap@usace.army.mil) and request addition to the database.
